

Actionable Exposure Management

We don't just tell you **what's wrong**.
We actually help you **fix it**.

Centralize | Prioritize | Remediate

Mondoo identifies, prioritizes, and addresses risks in your entire IT infrastructure from a single interface – covering on-prem, cloud, SaaS, endpoints, and the SDLC. Unlike siloed approaches, Mondoo enables you to quickly understand your most critical risks and tells you how to fix them, optimizing security efforts and boosting security posture.

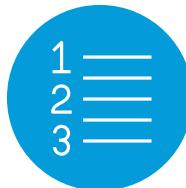

We don't stop at detection. We take you to resolution.

Mondoo doesn't just detect vulnerabilities and misconfigurations and then leave you on your own. Instead, Mondoo:

- 1) Tells you what to tackle first for the biggest impact
- 2) Explains exactly how to do it
- 3) Generates and tracks tickets to ensure completion

We call this The Mondoo Flow – the process that reduces manual work, customizes to fit your business needs, optimizes efforts, and accelerates mean time to resolution (MTTR):

THE MONDOO FLOW | Turning visibility into action

Key Capabilities

✓ COMPLETE COVERAGE

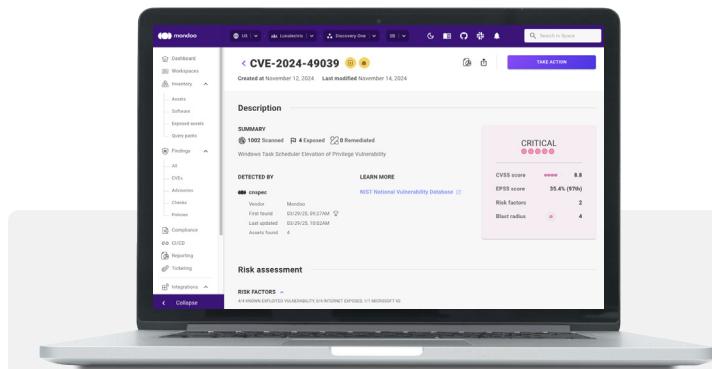

Mondoo detects vulnerabilities, misconfigurations, and exposed secrets in your entire IT infrastructure, including on-prem, cloud, SaaS, and endpoints – all from a single interface.

✓ SECURE YOUR SDLC

Mondoo integrates seamlessly into your SDLC, providing continuous vulnerability management, compliance enforcement, and risk mitigation across code, CI/CD and production.

✓ CENTRALIZE ALL FINDINGS

By unifying security data, alert fatigue is reduced and the need for manual data correlation is removed. Mondoo's central console can show prioritized findings across the board, enabling fast decision making.

Why Mondoo?

- Fast and actionable remediation
- Easy and flexible deployment
- Cover all your infrastructure
- Consolidate existing security tools

✓ RISK-BASED PRIORITIZATION

Mondoo determines the real risk of vulnerabilities by looking at service exposure, business impact, exploitability, compensating controls, and other risk factors. This risk scoring can be fully customized.

✓ CONTINUOUS COMPLIANCE

Demonstrate compliance at any time with Mondoo's continuous compliance monitoring and out-of-the-box templates for 300+ compliance frameworks and CIS benchmarks.

✓ FAST PATH TO REMEDIATION

Guided remediation, snippets, and synced integrations with ticketing systems such as Jira, Zendesk, and Azure DevOps greatly accelerates mean time to resolution.

✓ REPORTING AND SLAS

Measure and show security progress with Mondoo's one-click reports and SLAs. Export data for further analysis.

"I love that Mondoo doesn't require an agent on every single asset. It was really easy to connect Mondoo to our environment and instantly start scanning."

Austin Palmer, Head of Cybersecurity and Compliance at Campminder
